Step 1: Select the row of measurements that best represents your size. If all your measurements do not fall within the same row, use the row that represents your largest measurements.

PLEASE NOTE: The torso measurement is the most important measurement followed by the chest and hip measurements; the least important is the waist.

To measure the Torso: Place the measuring tape on the shoulder and drop the tape down the front of the body, between the legs and up the back to the same shoulder. When the tape completes a full circle, that is your correct torso measurement.

For the Girls Size Chart: Specified measurements are designed for a Growing Room Fit (workout fit). For competition fit (fits like a second skin), order one size smaller.

For the Boys Size Chart: Specified measurements are designed for a sleek, skin-tight fit. For growing room, order the next larger size.
